

## FREQUENTLY ASKED QUESTIONS:

Q. How long has Precast been in business?

A. We have been in business for over 30 years.

Q. Are you set up for credit cards?

A. We accept credit card payments via Paypal as well as personal checks and money orders.

Q. I know that cement blocks will crack against the heat of the fire. Why won't these?

A. We are a blend of materials with high compression as well as steel re-bar through the center of each piece. That makes our product durable fire after fire.

Q. What about frost heaving, snow and ice?

A. Each piece is free floating, frost heaving is not an issue because each piece will flex as needed.

Q. So, can I use my fireplace in the winter?

A. Absolutely, I have my very best fires in the winter!

Q. What about maintenance?

A. Good News! There isn't any. Please take the grills in out of the weather when you are not using them so they won't rust.

Q. Do I need a pad?

A. No, right on the ground is fine. Level out the 1st layer and start building from there.

Q. I would like to install my fireplace on a patio. Is that OK?

A. Use 6" x 12" firebrick on the bottom of the firebox area to protect the pad or the ground from the heat of the fire.

Q. How long will the fireplace last?

A. That depends on you, your burning habits and the type of wood you use. We find the average life span is 10-20 years

Q. Can we buy replacement pieces?

A. Yes! Replacement cost per log is \$20 to \$40 depending on the length of the log.

Q. Will you ship directly to me?

A. Yes, we will ship anywhere in the country.

Q. How do I know how to assemble?

A. We will supply you with step-by-step instructions and if that doesn't work, call me personally @ 508-930-8478 and I will talk you through it.

Q. How long does it take to assemble?

A. My biggest unit from start to finish takes two hours.

Q. How heavy is the longest piece?

A. The heaviest piece is 65 lbs. for a 42" log.

## Choose PRECAST for your Backyard Barbecue...

When was the last time you cooked a meal over your fireplace or charcoal grill and then sat by the campfire enjoying the fruits of your labor? Now you can "Thanks" to Precast Outdoor Fireplaces. Imagine an outdoor fireplace or charcoal grill that uses individual link logs, does not require a mason, special skills or motor. This is a product that will last long after your gas grill has come and gone. A fireplace that can be taken apart and moved, or to replace and maintain. We offer six different models to choose from (three models complete with grills). Pricing starting at \$449 for the Deluxe Firepit model and up to \$2,289 for the Mt. Katahdin model complete with two grills, a six foot chimney and two side table tops.

*So if this is your idea of a good time with family and friends then Precast is the choice for you.*
